

Next Steps

1. Celebrate the experience you've had together as a group. That's right—throw a party! Get together one more week, and this time just have fun. Encourage everyone to bring food, and then celebrate what you accomplished together.
2. Celebrate with us during the weekend service. It's possible that you have had people in your LIFE Group who don't attend church. Invite your entire group to attend church together.
3. Share your story. It is true that changed lives change lives. The power of a positive experience inspires others to be part of this life-changing experience. Either go to our website or give us a call and tell us what God did in your life.
4. Consider continuing on as a LIFE Group. If you started a group during The Real McCoy series, we encourage you to continue meeting as a group, and many groups will. We have resources available for you to use, such as the Sermon Discussion Guide, which follows the weekend service to take the message to a deeper level. We also have a library of resources, including six Bible study DVDs created by our own Pastor Keith Loy.
5. Consider starting a new group. If you've enjoyed meeting and developing relationships with new people, consider beginning your own LIFE Group. If that's you, please contact Celebrate and let us know!

If you have any questions at all, please give us a call at the church office at 605-357-7067. Thanks for doing your part in seeing God change lives!
